SCHOOL BUS SAFETY

MEASURES

1. Vehicles will be sprayed with an anti-viral disinfectant proven to kill Coronavirus's after each journey.
2. Vehicles are thoroughly cleaned at the end of each day including major 'contact' points.
3. Hand sanitiser dispensers have been installed by the entrance doors of all vehicles which must be used when boarding.
4. Protective screens have been installed behind the drivers seat on all vehicles.
5. Drivers have been issued with all the relevant PPE including face masks and visors, disposable nitrile gloves and hand sanitiser.
6. Vehicles and drivers will be kept on the same bus route whenever possible to reduce the risk of transmission between numerous social bubbles.

STAY ALERT ▶ CONTROL THE VIRUS ▶ SAVE LIVES
